Apologies for absence:

1. Introduction from the Chair

2. Minutes of Previous All Student Members' Meeting

Minutes of previous meeting and account forum approved by assent

3. Matters and actions arising

- None

4. Motions

- Boycotting the NSS (National Student Survey)

Bradley Allsop (PG Students Officer). NSS is third year national survey which has a link to tuition fees as part of the Teaching Excellent Framework. A silver categorisation would allow a raise in tuition fees above inflation. The motion is not against the survey being supported in future years, just while it is linked to fees. The SU currently supports and promotes the survey. There is a current debate in house of lords – says it should not be linked to tuition fees but this needs commons approval, so this debate is still relevant.

Questions:

Calum Watt – this affects not only students that come after us but students as a whole. Universities with high rank in league tables can charge higher fees. Those that rank lower will charge less and less and won't get more funding from government.

Bradley - this will add to debt of students and may starve other unis of funding. All institutions should get proper funding.

Josh Grinsell- if this motion is passed at ASM, how would we it be passed nationally? Bradley – it is up to the Students Leaders. The national campaigns are already planned, we could join, and consult our local MP.

(Unidentified student asked) - if we based it on last year's score, what would that mean for fees? We got 11 last year - this would be a gold rank - giving the option of fee rises.

Amendment – Michael Daniell - to change it to until another motion is passed, so that we will not support the survey until another motion, and not until fees are no longer aligned.

No questions.

No speech against.

Amendment passed by assent

(Unidentified student asked)- if we stop promoting the NSS we won't be in rankings, and won't this affect student numbers? Bradley Allsop - We wouldn't fall out of rankings as it uses 3 years' worth of NSS data, so it could be based off of the 2 years.

Sammi Storey— would you think it would be a good idea to take this to referendum? This would send a strong message to VC as she said she would not raise fees above inflation and with the motion to ban Yik Yak, there was back lash that only council voted - should all student have the chance to vote?

Bradley Allsop- there are worries about turn out of previous ideas.

Sammi Storey- It could be with Mod Val.

Bradley Allsop- it is currently timely due to commons debating it, so a referendum takes too long. If the referendum fails, it would count as a no vote, so would it not be better to vote now and maybe hold a referendum, so that it doesn't go automatic no.

This is an All Student Meeting, so all those interested are here, 50 is quorate, so a referendum is not needed.

What if commons vote against it? The next step would be to have the whole paper debated. Still chance for commons to debate.

Against:

Tom Dyer-Inflation affects everything and University incurs cost. Boycotting a national survey is not the way. The issue is that they have not publicised that it is attached to the NSS.

No Abstention speech.

Vote For: 73 Against: 16 Abstain: 3

Motion passes.

- Freedom of Speech

Joshua Grinsell (Disabled Students' Officer) – Free speech is held dear by this country and this right comes with responsibility. It does not allow us to incite violence, or to say what we like without hearing the other side. There were issues with events from 6-10th March, regarding the Conservative Society. This Union does fantastic work, but this policy puts constraints on students. An external speakers' policy review would allow speakers to be more easily brought in and society membership could increase.

Handouts from charity commission were provided by the Student Leaders- as asked for in the protest as to what the SU has to adhere too.

Emma Ord (RAG Officer) – all for free speech but are you saying that Sports teams should be allowed to carry out initiations? Some of the behaviour is unacceptable? Motion states that this ban should continue. Joshua thought that Spike article was wrong to include this in rating.

Luke Exton - Point of information-BUCS requires initiation bans for us to compete.

Michael Daniell: amendment – to add to the resolves section: to keep initiation ban already in place.

Adam long – wouldn't keeping the ban mean that the current issue would still remain? Michael- This would only mean keeping a ban on initiations.

No speech for against No speech for abstain

Amendment passes by assent

Nicola Harrison – how would we keep learning spaces safe for students? Joshua Grinsell- the safe space policy is not affected.

Calum Watt – This is a defence of political debate, not of safe space. This is to protect the right to dissent from the union. This does not allow racist, transphobic remarks.

Emma Ord (RAG Officer) – the SU believes it brought them in to disrepute – the university and SU should have a right to fight against something that brings it in to disrepute.

POI – Bradley Allsop – clarification for what disrepute means in the motion. Use of the term disrepute has been abused to the detriment of free speech and confused with disagrees with SU.

Michael Daniell- this should be clarified, some cases may be legitimate, but this should be clarified.

Jacob Bradbury- there are strict limits on outside speakers, is this included? The motion calls for a review of the external speakers policy.

Sammi Storey POI – a review is something we are already looking in to. We have to have an external speakers policy, but we are going to review it. We have explained this in a meeting with the MP, and clarified requirements of the charity commission. Bradley Allsop – POI – the charity commission does not want to stifle free speech. John-Paul- we are discussing this is only for external speakers.

No Speech against No speech to abstain. Motion passes by assent

- SU Disciplinary Procedure

Calum Watt – when this procedure was written the executive team was larger. There are only 3 members currently. Minutes are not available and the meeting is not fully representative. The trustees should review the procedure and come back to us after they have reviewed policies, with recommendations. Not enough information goes to student involved when they are in a disciplinary.

Michael Daniell – amendment-under point 1 add 'no student can be made as in breach of a disciplinary if they are not aware that the disciplinary exists'.

Amendment passes by assent

Ben Breames – Having been involved in disciplinaries, how would you go about providing representation? Is it just another student?

Calum Watt - As with other unions, representatives are allowed. This formalises what already happens.

Jared Johnson – is there anything to get it more open – who it is, what the issue is and who is making the decision? Calum Watt– this is potentially problematic – if abusive, the complainant might not come forward. If minutes exist, they don't always become available to either side.

Liam O'Dell –is anything to state who the panel are? There are some discrepancies with policies on the website and confusion as to who the panel are.

Calum – is not against this, but it may lead to intimidation or to issues with anonymity.

Josh Grinsell - amendment – if a hearing has to be held the defendant has to submit evidence to the panel.

Bradley Allsop – the accused are given 5 days to do so if they want to.

Calum Watt - can you justify why this amendment is needed?

Amendment withdrawn.

No Speech Against No Speech to Abstain. Motion passes by assent

5. Honorary Memberships (none to admit or remove)

6. Reports from Trustees

(These have been made available at lincolnsu.com/officer-reports in line with byelaw 3.2)

Sammi to present.

Updates from commercial side of the SU? Screen not working – will be attached to minutes and made available.

Bradley – will there be a vote next meeting? This is not to be voted on.

Calum – thanks for your feedback – events such as the football, perhaps the platform should be opened up too. It was also good to have the Swan free of sport as an alternative.

7. Any Other Business

Joshua Charles- An SUggestion got more than the required amount of votes – microwaves on campus. What is happening? Sammi- it is being assigned to a Student Leader.

Joshua Grinsell – any open SUggestions that people would like to discuss. Bradley – properly advertise the ASM meetings. Turn out today is good, so please vote. The Chair added that turnout is great to see. These meetings are monthly, come along.

Sammi Storey– there is only so much we can do, you as the students sharing it has helped massively.

Michael Daniell – will the next one be AGM so bye-law changes allowed? Yes.

8. Official notes and announcements

Close of meeting 8th May AGM.
